**LEAP OF FAITH (BODY SLIDE)**
This slide offers a 60-foot, near-vertical drop from the top of the temple, propelling riders at tremendous speeds through a clear acrylic tunnel submerged in a shark-filled lagoon.

**SERPENT SLIDE (TUBE SLIDE)**
Riders travel on 1 or 2-person tubes through this fast, five-story corkscrew slide, and end up with an easy-going float through a clear acrylic tunnel submerged in a shark-filled lagoon.

**HOW TO ACCESS THE MAYAN TEMPLE BODY SLIDES**
Access these slides by walking up two to five flights of steps and lowering yourself into a seated position and into the slide that is approximately level with the floor.

**HOW TO ACCESS THE MAYAN TEMPLE TUBE SLIDES**
Access these slides by walking up two to five flights of steps and lowering yourself into a seated position into an inner tube that is approximately level with the floor.

**HOW TO ENJOY THE MAYAN TEMPLE BODY SLIDES**
While riding flat on their back with legs crossed at the ankles and arms across their chest, guests use their upper, mid and lower body strength to maintain an in-line body posture. “Splashdown” is into a pool with a maximum depth of 3–6 in. Riders must then exit on their own.

**HOW TO ENJOY THE MAYAN TEMPLE TUBE SLIDES**
While riding in a seated position in an inner tube, guests will use their hands, arms, upper, mid and lower body strength to maintain riding posture. “Splashdown” is into a pool with a maximum depth of 3–6 in. Riders must then exit on their own.

**CHALLENGER SLIDES (BODY SLIDE)**
Riders can race each other down the two high-speed Challenger Slides, and then check their speeds on the time clocks at the bottom to see who won.

**JUNGLE SLIDE (BODY SLIDE)**
The thrilling jungle slide is designed for kids, and takes riders through exotic jungles and caves but right into the heart of the temple.

**RESTRICTIONS AND REQUIREMENTS**
For the safety of all our guests, here are the restrictions and requirements for each Mayan Temple attraction.

*Individuals with visible injuries (casts, bandages, etc.) are generally not permitted on tube slides. Partial arm and leg casts will be judged individually by qualified safety personnel on all slides.*
THE SURGE (TUBE SLIDE)
Starting at the top of the 121-foot Power Tower, this 1 or 2-person inner tube ride features a camelback drop into a canyon, then quickly moves down, twisting and turning through whitewater rapids.

HOW TO ACCESS — Access this slide by walking up seven flights of steps, stepping onto a platform with 2 steps, and lowering yourself into a seated position into a 1 or 2-person inner tube that is approximately one-foot off the floor.

HOW TO ENJOY — While riding in a seated position in an inner tube, guests must be able to grip the tube handles and use their arms, upper, mid and lower body strength to maintain a riding posture. “Splashdown” is into a 4-foot deep river where the rider has the option of staying in the inner tube and riding around The Current. Riders must be able to exit The Rapids River on their own.

THE ABYSS (BODY SLIDE)
This thrilling, 200-foot long body slide begins with a 50-foot near-vertical drop through complete darkness and ends with a splash through waterfalls into an underground lair of prehistoric alligator gars and fish.

HOW TO ACCESS — Access this slide by walking up seven flights of steps and lowering yourself into a seated position and into the slide that is approximately level with the floor.

HOW TO ENJOY — Access this slide by walking up seven flights of steps and lowering yourself into a seated position and into the slide that is approximately level with the floor.

THE FALLS AND THE DROP (TUBE SLIDES)
For both these rides, while seated in a 1 or 2-person inner tube, a rider slides 58 feet to ground level before they are propelled upward through a water coaster of twisting tubes.

HOW TO ACCESS — Access these attractions in two ways. Through The Current on an inner tube onto our Power Tower conveyor, which takes riders directly to the mouth of either slide. Or by walking up five flights of steps and lowering yourself approximately three steps down into a seated position in a floating inner tube.

HOW TO ENJOY — While riding in a seated position in an inner tube, guests must be able to grasp the tube handles and use their arms, upper, mid and lower body strength to maintain a riding posture. The water reaches a maximum of a foot deep, and riders must be able to exit The Rapids River on their own.

Restrictions and Requirements
For the safety of all our guests, here are the restrictions and requirements for each Power Tower attraction.

Individuals with visible injuries (casts, bandages, etc.) are generally not permitted on tube slides. Partial arm and leg casts will be judged individually by qualified safety personnel on all rides.
**River Rides**

**The Current/Rapids River**
Guests are propelled along an active, mile-long river in their inner tubes by churning rapids, 3- to 4-foot waves, and conveyor belts.

**How to Access** — Access by walking down a flight of steps or using a zero-entry edge from level or slightly inclined pool decks.

**How to Enjoy** — While seated in an inner tube, guests use their hands, arms, upper, mid and lower body strength to maintain riding posture. The depth of the river varies between zero inches and four feet.

**Lazy River**
Guests will enjoy this relaxing, scenic river as they sit in inner tubes and are guided by a gentle current.

**How to Access** — Access requires walking down 8 steps.

**How to Enjoy** — Experience this ride while seated in an inner tube. Guests will use their hands, arms, upper, mid and lower body strength to maintain riding posture. The depth of the river is 3 feet throughout.

**Restrictions and Requirements**

For the safety of all our guests, here are the restrictions and requirements for each River Ride.

- Trained Service Animals ARE allowed on the pool decks, but not in the water.

ULTIMATE TRAINER FOR A DAY
Experience a full day of fun interacting with marine life, which requires walking, standing and swimming. You’ll also work behind the scenes with professional animal trainers and aquarists. Participants must be in good medical condition.

HOW TO ACCESS — Access this program from the exterior of the resort by using outdoor pathways from The Cove or Royal Towers.

HOW TO ENJOY — Participants must be able to stand and step down into exhibits. They must be able to walk along a sandy, rocky floor and snorkel in 12 feet of water with small sharks, rays and tropical fish, and swim with dolphins.

SEA LION INTERACTION
Wade into knee-deep water to interact with a sea lion and experience their playfulness first-hand.

HOW TO ACCESS — Access this area by using the level walkway from the Dolphin Cay check-in area to pool side. There is a 6” tall curb that a guest must cross to enter the pool.

HOW TO ENJOY — Guests with mobility challenges may require assistance entering the water. Guests with special needs must inform the Dolphin Cay staff in advance of their booking so that any available accommodations can be made.

BEHIND-THE-SCENES TOUR
Take an exclusive first-hand look at how our animals are cared for, while learning a hand and learning interesting facts about each species, their natural environment, and their Atlantis habitats.

HOW TO ACCESS — Access by using a flat grade walkway to reach the orientation location. Guests are transported to various points of the tour using a motorized cart for which guests may require assistance transferring off and on.

HOW TO ENJOY — Participants will navigate the experience by walking or using a wheelchair over a flat grade floor and by way of elevator in multi-story buildings.

DOLPHIN CAY INTERACTIONS
Shallow Water Interaction — Wade into waist-high water to interact with a bottlenose dolphin and discover just how playful and athletic these incredible animals can be. You’ll even go nose-to-nose as you touch, kiss, and get to know a delightful new friend.

Deep Water Swim — Join the excitement as you snorkel alongside a dolphin in a hand-held water scooter, followed by Dolphin Cay’s signature “foot push,” where a powerful dolphin propels you across the lagoon for an amazing rush.

HOW TO ACCESS — Access this area from the exterior of the resort by using a ground-level ramp near The Cove.

HOW TO ENJOY — A water wheel chair is provided, but does not remain in the water for the entire interaction. Guests entering the water who have special needs must inform the Dolphin Cay staff in advance of their booking.

OBSERVATION AND BEACH ACCESS
Friends and family of participants can get complimentary access to an observation platform or the beach area to watch the playful dolphins and their interaction. Guests may upgrade to a Beach Pass, which includes unlimited, all-day access to the Dolphin Cay private beach.

HOW TO ACCESS — Access this area from the exterior of the resort by using a ground-level ramp near The Cove.

HOW TO ENJOY — Guests use a ramp by walking or using a wheelchair or electric vehicle (over a flat-grade floor), while observing marine animals from a platform. For those with Beach Access, animals are observed from a sandy beach area.

RESTRICTIONS AND REQUIREMENTS
For the safety of all our guests, here are the restrictions and requirements for each Dolphin Cay attraction.

Dolphin Cay Shallow Water Interaction
Participants in all these programs must be in good medical condition and medical release forms are required. Please contact the staff about any medical conditions prior to booking.

**THE DIG**

Visitors can experience the lost city of Atlantis as they view mythical artifacts and over 20,000 marine animals in this incredible 2.7 million-gallon exhibit.

**HOW TO ACCESS** — Access from the Royal Towers by using an exterior, ground-level ramp or an elevator outside the Great Hall of Waters, though double doors near Chapel.

**HOW TO ENJOY** — By walking or using a wheelchair, move through the softly-lit underground corridors over a featured, flat grade floor, while observing marine animals through clear acrylic panels.

**MAYAN TEMPLE SHARK LAGOON**

Caribbean Reef Sharks and Nurse Sharks can be seen from an exciting water slide through a clear underwater tunnel, or from the panoramic windows of the surrounding deck.

**HOW TO ACCESS** — Access by exterior, ground-level ramps at the Mayan Temple. The south ramp leads to a top view and the north ramp leads to acrylic panels for an underwater view.

**HOW TO ENJOY** — Walk or use a wheelchair over a flat grade floor while observing marine animals through clear acrylic panels.

**SNORKEL THE RUINS**

Guests can snorkel through the unique underwater vistas of The Ruins Lagoon alongside sleek sharks, spotted rays and brilliantly colored tropical fish.

**HOW TO ACCESS** — Access from the Royal Towers lobby level or from ground level by using an elevator in the Dig, adjacent to the Great Hall of Waters.

**HOW TO ENJOY** — Non-participating guests can observe marine animals from above or below the exhibit by walking or using a wheelchair over a flat grade floor. Participants must be able to stand up, step down into the exhibit, walk along a sandy, rocky floor, and snorkel in 15 feet of water with sharks, rays and schooling fish.

**STINGRAY EXPERIENCE**

This unique hands-on encounter gives guests the thrill of feeding rays in a shallow lagoon followed by the opportunity to snorkel alongside them.

**HOW TO ACCESS** — Access by using an exterior, ground-level ramp near the Coral Towers or an elevator from the Coral Towers lobby level.

**HOW TO ENJOY** — Non-participating guests can observe marine animals from above the exhibit by walking or using a wheelchair over a flat grade floor. Participants must be able to stand up, step down into the exhibit, walk along a sandy, rocky floor, and snorkel in 4-5 feet of water with small sharks, rays and tropical fish.

**PREDATOR LAGOON**

Guests can see barracudas, sawfish, and various types of sharks by walking through a clear underwater viewing tunnel, or through panoramic windows.

**HOW TO ACCESS** — Access by using an exterior, ground-level ramp near the Coral Towers.

**HOW TO ENJOY** — Participants can walk or use a wheelchair over a flat grade floor while observing marine animals through clear acrylic panels. The path ends in stairs so immobile guests will have to reverse their steps to exit.
